EVERY STUDENT EVERY SCHOOL

What is the rationale for the approach to learning and support through Every Student, Every School?

- Our strategy in Every Student, Every School: Learning and Support is informed by key facts:
- The number of students in our schools with additional learning and support needs has increased considerably in recent years, particularly the numbers of students with autism and students
- with mental health problems. The majority of these students have lower level additional learning and support needs and are enrolled in our mainstream classes, reflecting the preferences of their parents.
- The current specialist service system in our schools recognises the type of disability a student has rather than the additional educational needs of each student.
- Expectations about access and participation for students with a
- disability who have additional learning and support needs are guided by the Commonwealth Disability Standards
- for Education 2005 in addition to significant national reform in the area of disability.

Through Every Student, Every School:

Learning and Support we are establishing a new way of doing business for students with additional learning and support needs and their teachers that responds to the changing profile of students in our schools and contemporary expectations about support for students with disability.

A VERY BIG THANK YOU

On Monday I was given a beautiful James White watercolour “The Boat Shed” as a gift from the students, staff and the Parents and Citizens Association. I am very appreciative of this special gift. When I have it framed, it will hang in a special place in our home. Thank you for the privilege of working with and for you all over the last seven and a half years. I have enjoyed this special place and its special people. I have been very touched by the wonderful staff night organised for my wife and I last term and this gift from the Hillvue school community.

Warmest Regards

Ben van Aanholt

RUGBY LEAGUE

On Monday this week, fourteen boys and girls represented Hillvue Public School at the NSW Rugby League All Schools Carnival in Penrith. All the best primary school rugby league teams in the state competed. The squad included Jarrod Peachey, Nicholas Birrell, Joshua Shanley, Maxwell Cutmore, Sheleaka O'Leary Cloake, Jellelah Denniss, Schyala Carter, Thomas McGrath, Michael Flett, Brody Barrie, Aaron Creighton, Alex McKee, Brandon O'Leary and Holden Norton. They played two games against Centaur (Tweed Heads) and Willmott Public Schools (Penrith). Despite the long distance traveled, we played very well in the games. Unfortunately we didn't have a win but the players all enjoyed the day. A very big thank you to Mr Alley who volunteered his time to coach the team and the supportive families who came on the trip.

EARLY ACTION 4 SUCCESS

Hillvue Public School

Is the NSW Department of Education strategy for implementing the NSW Literacy and Numeracy Action Plan in 2012. As part of this strategy the NSW Department of Education and Communities will appoint up to 50 Instructional Leaders.

As a way of introduction my name is Ben van Aanholt and I have been appointed as an Instructional Leader to work with Hillvue Public School and Tamworth West Public School. My previous school leadership experiences, include Principal of Hillvue Public School, Principal of Kootingal Public School and Deputy Principal of Tamworth South Public School.

Instructional leader roles have been tailored in order to meet the context and needs of the school(s) involved and the school(s) will receive additional resources including funding for personnel, professional learning and support for K to Year 2 intervention programs.

My role as Instructional Leader will be to support the Principal of both schools to drive improvement in literacy and numeracy under the Early Action 4 Success strategy. The role will involve working with the Principal, leadership team and staff to support the identification of school priorities and planning appropriate actions to bring about literacy and numeracy improvement. It is about realigning school plans, targets, expectations and resources as well as oversee the implementation of strategies aimed at achieving growth in literacy and numeracy in the early years.

I have decided in the line of sight management to base myself at Tamworth West Public School and locate an instructional leader to work at Hillvue Public School. Their role will be to (and may involve working with both schools)

- enhance teacher capability in improving literacy and numeracy outcomes
- provide professional development
- work alongside teachers to both model and improve teaching and assessment skills

For students the strategy has three tiers

1. to personalise their learning in the classroom
2. individual and small groups interventions by the class teacher or specialist teacher on programs
3. intensive, personalised assessment and intervention for students with more complex literacy and numeracy needs

I am very much looking forward to continue working with the very professional and committed staff at Hillvue.

Regards

Ben van Aanholt
